

### Oral Presentation

Ref.	Title
MSMI ON01	Bioink Hydrogel from Fish Scale Gelatin Blended with Alginate for 3D Bioprinting Application
MSMI ON02	Virtual Geography of Suaeda Maritima in Samut Sakhon
MSMI ON03	Chitosan from Pacific white shrimp ( <i>Litopenaeus vannamei</i> ) shell and its epigallocatechin gallate-conjugate: Antioxidant and antimicrobial activities Chitosan
MSMI ON04	Optimization for preparation of antioxidative and tyrosinase inhibitory peptide from jellyfish ( <i>Lobonema smithii</i> ) enzymatic hydrolysis
MSMI ON05	Optimization of enzymatic hydrolysis for protein hydrolysate production with antioxidant and photoprotective activity from sea cucumber
MSMI ON06	Partial purification of antioxidant peptides from tuna blood protein hydrolysate using ultrafiltration membrane and gel filtration chromatography methods
MSMI ON07	Mainstreaming the science-policy interface in the blue economy in Thailand on academic perception
MSMI ON08	Structure formation and the properties of alginate-wheat protein-based as meat analogues
MSMI ON09	Sustainable Development of India-ASEAN Blue Economic Corridor
MSMI ON10	Cooperation Between China and Thailand's Coastal Cities Under the Background of "One Belt One Road" -- Based on the Perspective of Real Estate Investment
MSMI ON11	Assessing the Mangrove (De) Forestation based on classification Algorithm by using pixel-based image texture
MSMI ON12	The Development of a VR-based Maritime Safety Training System

**Poster Presentation**

Ref-	Title
MSMI PN01	Utilization of tilapia skin waste to extract protein hydrolysate for producing ingredient of protein beverages
MSMI PN02	Characteristic and antioxidant activity of Northern freshwater macroalgae ( <i>Cladophora glomerata</i> ) extract as affected by prior chlorophyll removal and drying methods
MSMI PN03	Rice cracker incorporated with dried Green Caviars ( <i>Caulerpa lentillifera</i> ) as an alternative healthy snack
MSMI PN04	Assessment of Indicator Bacteria Community in Coastal Seawater and Sediment of the Andaman Sea.
MSMI PN05	Improving mechanical and thermal properties of chitosan-astaxanthin film by crosslinking with genipin
MSMI PN06	Effect of drying methods on physicochemical properties and antioxidant activities of seablite ( <i>Suaeda maritima</i> (L.) Dumort.) powder
MSMI PN07	Improving the Quality of Frozen Fillets of Dried Gourami Fish ( <i>Trichogaster pectoralis</i> ) by Using Sorbitol and Citric acid
MSMI PN08	The Relationship between Thailand's Major Macroeconomics variables and Coal Import: A Preliminary study
MSMI PN09	The Relationship between Macroeconomic factors and Container Port Throughput - A study of Thailand

**Online Presentation**

<b>Ref-</b>	<b>Title</b>
MSMI OLN01	A Supply Chain View on Container Port's Environmental Management Strategy and Environmental Performance
MSMI OLN02	The Analysis of the Current Legal and Regulatory Challenges Related to the Operation of Autonomous and Semi-autonomous Ships
MSMI OLN03	Determinants of the Adoption of Autonomous Ships for Container Carrier in Taiwan
MSMI OLN04	The Implication and Difference between Sue and Labour Charges and Particular Charges of Marine Insurance
MSMI OLN05	Challenges of Cooperation for Blue Economy Development in Asia
MSMI OLN06	Physicochemical Properties of Shrimp as the Impact of Blanching and Drying Temperature
MSMI OLN07	Visualized Quantitative Research of Marine Pollution in South China Sea
MSMI OLN08	Addressing Marine Spatial Planning for the development of Chittagong Port, Bangladesh.
MSMI OLN10	Can In-house crewing tackle the talent crunch in Maritime Industry?
MSMI OLN11	Sustainable Coastal and Marine Tourism: The Case of Pamban Island
MSMI OLN12	Assessing the opportunities and challenges of Advanced ICT in Maritime Industry – A Conceptual Framework
